Dear Emma,

RE: Whanganui River Enhancement Trust Support

Further to your presentation and discussions at the Whanganui River Enhancement Trust (WRET) meeting in Ohakune on 5th October 2020.

WRET Trustees are excited by the concept of your Socio-Ecological Learning Environment initiative and the role it might play in the education and advocacy space around the protection and rehabilitation of the Whanganui River catchment into the future. We are very happy to have been able to support your initiative with funding towards your nursery and riparian planting programme over the next two years.

WRET also offers its support in your endeavours to seek further funding from other providers. Should any funding organisation wish to discuss WRET's support for your initiative, I would be more than happy for them to contact me (Mobile: 027 490 8648; Email: Warren.Furner@ruapehudc.govt.nz).

We wish you well on your journey and WRET Trustees look forward to working with you in the future.

Yours sincerely
